

Jonard Tools fish tapes are designed to make pulling cable through conduit, walls, ceilings, and tight spaces faster and more efficient. Built with durable materials and ergonomic housings, these tools provide smooth payout, reliable control, and high strength for professional cable installation in electrical, telecom, fiber optic, and low-voltage applications. Steel models (FTS series) offer maximum pulling strength for demanding jobs, while fiberglass models (FTF series) provide non-conductive flexibility and advanced accessories for safe and versatile cable installation.

- Durable Construction – Rugged housings and strong tape materials withstand demanding jobsite conditions
- Smooth Payout & Retrieval – Reel systems provide controlled dispensing and easy rewinding
- Measurement Markings – Clearly marked tape allows accurate measurement during installations (Only on FTS models)
- Ergonomic Reel Design – Comfortable handles improve control and reduce fatigue during use
- Cable Pulling Efficiency – Ideal for pulling electrical, fiber optic, and low-voltage cables through conduit and walls
- Viewing Windows – Allows quick identification of remaining tape inside the reel
- Lifetime Warranty
