

Built for professional installers, the HAMC-20 combines powerful striking force with ergonomic comfort and long-lasting durability. The HAMC-20 features:

- 20 oz. forged steel head with smooth face delivers dependable striking power and extended durability.
- Magnetic nail starter supports fast, one-hand nail placement for heads up to 0.5" in diameter.
- Straight claw design allows for efficient prying and nail or staple removal.
- Fiberglass core reduces vibration to help minimize user fatigue during repeated use.
- 13" dual-material handle with non-slip grip enhances comfort and control.
